Clear PVC Ziptrak® blinds
with removable posts

Mesh PVC Ziptrak® blinds

Sign written Ziptrak® blinds

Tinted PVC Ziptrak® blinds

Cool in summer - warm and dry in winter

With sleek Ziptrak® blinds by Camerons Blinds & Awnings you can enjoy your outdoor lifestyle **all year round** - no matter what the weather!

Pull up and push down - it's that simple to protect you, your family and your friends from Melbourne's ever changing weather with this ingenious environmentally friendly track guided alfresco blind system.

Fully custom designed to suit your home or business needs, choose from high quality finishes including our extensive range of marine grade Japanese clear, tint or mesh PVC fabrics in your choice of colours. Our **NEW** range of 1% openness factor PVC coated mesh will block up to 99% of the rain, wind and UV glare whilst still maintaining your view. Self extinguishing, print capable and containing no harmful substances, our new range is the ultimate and ideal mesh weave fabric for your Ziptrak® blinds.

Gliding easily along aluminium tracks (choose from our range of colours or custom powder coating) versatile Ziptrak® blinds lock down into integrated patented clips, providing snug protection from rain, wind, sun and UV rays. The blind is then easily released via the new easy-to-use central lift handle, stopping at any position you like, or fully retracting into the pelmet. Motorised or solar automated options are also available.
